

SAP PP, PM Lead

Description

- Location: **Fort Worth, TX**
- # of Positions: **1**
- Eligibility: **Open**
- Client Name / Domain: **Fortune 1000**
- Bill Rate: **\$\$\$ per hour**
- Employment Mode: **Contract / Corp-to-Corp**
- Contract Duration: **12+ mos. Contract**
- Experience: **10+ years**
- Skills: **SAP S/4 HANA, SAP PP, SAP PM**

The Ask? Client is looking for an experienced **Senior SAP PP/PM Consultant** with a strong background in **SAP S/4 HANA**. The ideal candidate will have in-depth knowledge of production planning and quality management processes, with the ability to configure and optimize these functionalities to meet business requirements. SAP certification and experience in the pharma domain are advantageous.

Responsibilities

- **Solution Design and Configuration :**
- Lead the design and configuration of the **SAP PP** and **PM** modules in **S/4 HANA** to support production planning and quality management processes.
- Configure production planning functionalities such as **MRP**, **production orders**, and **capacity planning** in alignment with business needs.
- Implement quality management processes including **inspection planning**, **quality notifications**, and **non-conformance management** to ensure compliance with industry standards.
- **S/4 HANA Implementation :**
- Participate in full lifecycle **SAP S/4 HANA** implementation projects, focusing on integrating **PP** and **QM** functionalities.
- Collaborate with business stakeholders to gather requirements, conduct blueprinting sessions, and ensure alignment with production and quality objectives.
- Support data migration activities, ensuring accurate transfer of master and transactional data related to production and quality processes.
- **Process Optimization :**
- **Testing and Validation :**
- Develop and execute test plans for **PP** and **QM** processes, ensuring comprehensive coverage of functional requirements and business scenarios.
- **User Training and Support :**
- Conduct training sessions for end-users and super-users on SAP PP and QM functionalities to ensure effective usage and understanding of processes.
- Provide post-go-live support for production and quality processes, troubleshooting issues and offering guidance on system functionalities.

Hiring organization
TECHPEOPLE USA

Employment Type
Contractor

Duration of employment
10-12 mos.

Industry
BFSI

Job Location
Wilmington, DE, DE, USA

Date posted
November 19, 2024

- **Collaboration and Leadership :**
- Work closely with other module experts (e.g., **SD, MM, PM**) to ensure integrated and streamlined processes across the SAP landscape.

Qualifications

- Minimum 8 years of experience in **SAP PP** and **PM** configuration and implementation.
- At least 1 year of hands-on experience in **SAP S/4 HANA** implementation projects, specifically focusing on **PP** and **PM functionalities**.
- **Technical Expertise :**
 - Strong understanding of **SAP PP** functionalities, including **MRP, production orders, capacity planning, and demand management**.
 - In-depth knowledge of **SAP QM** processes, including **inspection planning, quality control, quality notifications, and audit management**.
 - Experience with integrating **PP** and **QM** with other SAP modules such as **SD, MM, and PM**.
- **Certifications :** SAP certification in **SAP PP, SAP PM, or S/4 HANA** is highly desirable.
- **Other Skills :**
 - Excellent analytical and problem-solving skills, with a focus on delivering high-quality results.
 - Strong communication and interpersonal skills, enabling effective collaboration with both technical and non-technical stakeholders.
 - Proven ability to manage multiple priorities and deliver projects on time in fast-paced environments.
